

## **Non-statutory Appendix to the Faringdon Neighbourhood Plan**

*These statements were removed from policies on the recommendation of the Inspector*

- 1) Walking and cycling should be encouraged through campaigns supported by the Town and District Councils, and the Faringdon Academy of Schools. (Supporting Policy 4.3A)
- 2) A Town Characterisation Study will be undertaken to inform a Conservation Area Boundary Review. A subsequent Conservation Area Appraisal and Management Plan will be undertaken for the Faringdon Town Centre Conservation Area.

All opportunities within the town centre and Conservation Area for public realm improvement will be identified and interventions prioritised by the Town Council. Where appropriate, Community Infrastructure Levy funds and developer contributions will be targeted towards funding their delivery. (Formerly Policy 4.7C)

- 3) The Faringdon Country Park will be developed to promote leisure, sport, recreation and wildlife.

A strategy, funded by developer contributions, will be commissioned by the Town and District Councils to examine the land ownership / management issues and set out the step by step process to achieve the delivery of the Country Park. The strategy will address a range of issues including:

- i) access and parking,
- ii) wayfinding and signage,
- iii) biodiversity and landscape management,
- iv) informal and formal recreation,
- v) high quality play facilities to meet the needs of all ages of children (particularly older children),
- vi) support for the sports hub,

and other relevant matters. In addition, a community facility space will be identified for use by local community groups.

The Strategy will set out arrangements for the ongoing maintenance and management of the Park including proposals for the establishment of a management board or similar. Developer contributions and the Community Infrastructure Levy will be secured pursuant to policy 4.8A to support the delivery and maintenance of this Country Park. (Formerly Policy 4.10A)
