 - A member of the public enquired if there was a timetable for the Parking Survey that was completed earlier in the year. Cllr Wise explained the survey had been accepted and recommended by the Town Council and was now in the hands of VoWHDC.
 - It was asked if there was any compulsion on VoWHDC to act. It was explained that the main focus of the survey was that enforcement of existing parking restrictions was needed. This would be costly and there are fewer problems in other towns in the Vale so the district council had decided against civil enforcement.
 - It was asked if we could lobby the police to enforce. It was explained that this had been raised at the Traffic Advisory Committee and the Neighbourhood Action Group but the police were over stretched.
 - The comments were NOTED, and it was AGREED that parking was an issue the new Town Council should pursue.

- (e) Youth Services Cllr. Andrew Marsden gave a brief update in the absence of a Committee Chair. This was NOTED.

- Independent Advice Bureau - Lisa Bengel
- All Saints' Church – Andrew Sergeant

These reports were NOTED.

6. Faringdon Neighbourhood Plan

Cllr. Mike Wise gave an update on progress of the Faringdon Neighbourhood Plan. Following the decision to include protection of green spaces, the entire Faringdon Neighbourhood Plan will need to be resubmitted, this would include another 6 week public consultation in the town plus a 6 week consultation by the VoWHDC. The plan would go out to public consultation in Faringdon immediately after the Purdah period.

7. S106 Funding

Cllr Mike Wise gave an update regarding future applications for possible S106 funding. A list had been prepared by Faringdon Town Council two years ago and S106 agreements had been made as a result. Cllr. Wise explained that projects were being identified to improve and build on this original list. He expressed that it was important to move quickly and have projects ready for any possible funding opportunities. Ged Cassell, VoWH, had been advising on the criteria needed to build a focused and successful bid. Business cases for various areas were now being completed by a variety of groups.

Cllr Wise asked the meeting if they had any suggestions for projects to be considered for S106 funding:

- One resident expressed concern that play areas were not on the list, in particular play areas for older children. This request was NOTED. She believed that development of the Country Park was in the Faringdon Neighbourhood Plan for this purpose. Cllr. Wise explained that the Country Park was a VoWHDC park so they would need to pursue S106 funding for its development.
- One resident asked for a hearing loop for the Corn Exchange to be considered to assist hearing impaired users. This request was NOTED.
- It was asked if more Public Art could be considered. This was NOTED.
- A member of the public asked if the new Community Infrastructure Levy would result in automatic contributions. It was explained that once CIL replaced S106, Faringdon Town Council would be entitled to 25% of contributions if the FNP is adopted and 15% if it is not. However, it is understood that a business case for projects would still be needed to ensure that the funds are used to reduce the impact of new developments on the town's existing infrastructure.

8. Public Speaking Time and General Discussion

- A Member of the public enquired if there was currently a Town Council operated graveyard and if there was a plan for the future taking into account the increasing population. It was explained that the Town Council did not currently operate a grave yard, but there were two graveyards in the town.
