Dear Sir/Madam

Re: A34/A420 Botley Interchange Carriageway Maintenance

I am writing to inform you that Oxfordshire County Council will be carrying out carriageway repair work on the A34/A420 Botley Interchange. The work will include resurfacing of the roundabout, drainage repairs, replacing road markings and traffic signal loops.

Areas of the carriageway at the A420 Botley interchange have started to fail. Early intervention has been identified to maintain the existing road surface in order to reduce the need for major reconstruction in the near future.

Key Dates

The work will be carried out in two phases. Phase one will include drainage repairs and replacement of gully covers and this work is programmed to start on 15 June 2016 for 3 nights. Phase two will include carriageway resurfacing, road markings and installation of traffic signal loops; this work is programmed to start on 27 June 2016 and will take up to two weeks.

The working hours will be from 9:00pm to 6:00am Monday to Sunday.

Traffic Management

Phase one work, which includes the drainage repairs, will be carried out under lane closures. Phase two work, which includes carriageway resurfacing, will be carried out under full road closure.

The closures are shown on the attached plans together with the durations and diversion routes.

Buses

Buses will follow the diversion route during the closures. No bus stops will be suspended during this work.
