

District and County Councillor's Report: 9th September 2024

Local Issues:

- Lighting on Highworth Road - I continue to follow this up and officers have apologised for the delays.
- Parking on the Apron - have been following up complaint of parking on the apron around the Old Town Hall.
- Damage to Bus Lane - this continues to remain a problem; officers are aware.
- Highways Maintenance Requests - I have suggested that the resurfacing of Highworth Road and Canada Lane be prioritised in the coming programme of works.
- A420 Speed Reductions - the consultation has closed; I wrote in support of the proposal and continue to follow its progress; the decision will probably be taken by the Cabinet Member on October 10th.
- Wicklesham Quarry - there is no further news on the application; it will go to committee should officers recommend approval.

The Thames Valley Flood Scheme - is a large-scale project looking to reduce flood risk across the Thames Valley; it is an Environment Agency scheme which may affect areas around Faringdon. Find out more using the link below with the latest update.
